## P R E F A C E

It is generally recognised that availability of accurate and upto date statistical data is basic requirement for every development strategy. In order to fulfil the data need of the users Bureau of Statistics has been issuing this publication annually since 1972. The present edition is the 24th in the series. The publication contains latest data on almost all socio-economic aspects of the province with their break up by administrative units viz Tehsil, District and Division as far as possible. It contains information mostly for the province of the Punjab, but information relating to Population, Housing, Prices, National Accounts, Banking, Foreign Trade, Electricity, Pakistan Railways and PIA has been given at Pakistan level. It also contains a 'Statistical Abstract' which gives a comparative data picture of almost all Socio-economic sectors of Pakistan and the Punjab.

The process of improvement is a continuing phenomenon and standard of material, design and presentation is being kept under constant review. To increase the utility and relevance, the scope of the present edition has been broadened in terms of coverage and presentation by adding information on Tehsil-wise Number of Mauzas having Electricity, Post Office, & Telephone Facilities.

The Bureau is grateful to the various Federal and Provincial Departments and Autonomous Bodies for their co-operation in supplying the data and other relevant information and look forward to their co-operation in future as well. The hardwork put in by the Bureau's Officers and Officials in bringing out the present publication is acknowledged.

## EXPLANATORY NOTES ON AGRICULTURE SECTION

### A - Agriculture

This sub-section includes data on the following topics:-

1. Land Utilization;
2. Agricultural Farms;
3. Agricultural Inputs ( Temperature, Rainfall, Canal With-drawals, Sales, Nutrients Per Kg. and Prices of Fertilizers, Distribution of Improved Seeds and Area Treated with Pesticides )
4. Tubewells Installed, Electrified and Pumping in SCARPS' Areas; their Pumpage Capacity and Actual Pumpages;
5. Tractors by Ownership and Imports of Tractors;
6. Agricultural Institutional Credit;
7. Cropped Area and Area Irrigated by Different Modes of Irrigation, Total Area Sown under various Crops ( Total and Irrigated ) and Area Failed;
8. Production and Per Hectare Yield of Important Crops. Area and Production of Various Oil Seeds Fruit and Other Minor Crops..
9. Water Table Depths and
10. Water Logged Area.

### II. The collection and compilation of Land Utilization, Crop Acreage and Production data are explained below:-

#### 1) Land Utilization

Land Utilization Statistics are compiled by the Statistical Wing of the Agriculture Department. These Statistics are compiled from the District-wise information supplied annually by the Deputy Commissioners which is based upon summarisation of crop inspection data entered in Form-I of " **Lal Kitab** " of each Revenue Estate.

However, Land Utilization Statistics for 1987-88 & 1989-90 ( mauza-wise ) and 1991-92 to 1995-96 ( tehsil wise) are based on the returns supplied by the tehsil offices which are processed through Computer in this Bureau.

### III. Definitions of the terms used in the Land Utilization Statistics are given below:-

- i) **Total Area Reported** means the total physical area of the village/deh, tehsil or district etc. It includes cultivated area ( net area sown + current fallow ), culturable waste, unculturable land and forest area.
- ii) **Forest Area** means the area of any land classed or administered as forest under any legal enactment dealing with forests. Any cultivated area which may exist within such forest should be excluded and shown under the heading cultivated area.

- iii) **Total Cropped Area** means the sum total of area sown during Kharif and Rabi seasons during a given year including Zaid Kharif and Zaid Rabi.
- iv) **Not Available For Cultivation** means the land absolutely barren, roads, canals, tanks, beds of rivers, torrents and ravines, sites of villages, houses, hills, mountains, sand dunes and all land devoted to uses alien to agriculture.
- v) **Culturable Waste** means all cultivable land not actually cultivated. It should include all grazing and other land not included under forest.
- vi) **Cultivated Area** means the land currently being used for agricultural purposes, including land under crops, orchards as well as current fallow. It is the area net sown plus current fallow.
- vii) **Current Fallow** means the part of the cultivated area which has not been used for cropping during the year under reference but for which the total vacant period does not exceed three crop seasons. The land remaining vacant for more than three successive seasons should be shown under the head 'cultivable waste'.
- viii) **Net Area Sown** means the area which has been sown at least once in a year. It will include area under crops, fruit, vegetables etc.
- ix) **Area Sown More Than Once** means the difference between the total cropped Area and net sown i.e. the difference between (iii) and (viii).

## 2) **Area Under Crops**

Census of Crop Acreage is conducted by the Revenue Patwaries, twice a year, one for Kharif Season and other for Rabi Season in all about 25892 ( Excluding Islamabad ) Mauzas of the Punjab Province. The Mauza-wise Crop Acreage Returns (Goshwara Jinswars) prepared manually by the Patwaries, are collected by the Bureau of Statistics, through Director Land Records from the Tehsildars. These returns are checked by the Bureau for completeness of coverage, edited, coded and entered in Computer disks. Credibility checks are applied at mauza level with the help of the Computer. Errors of coverage, recording and processing the data are thus minimized and the quality of Crop Acreage Statistics is improved. These statistics are utilized by the Agriculture Department in the preparation of final production estimates. It may, however, be mentioned that 'Zaid Rabi' crops like Tobacco and Onion are not fully covered through this census as separate crop inspection is carried for these crops. The manually compiled acreage of these crops by the Revenue staff is, therefore, used for preparation of the final estimates of these crops.

### 3) Production of Crops

For Wheat, Cotton, Rice, Maize and Sugarcane, the Agriculture Department conducts Random Crop-Cutting Surveys. The observed data of these Surveys are edited in the light of available data on weather conditions, availability of water, use of fertilizers and other agricultural inputs. The Survey Estimates of yield-rates are then modified and utilized to prepare 'Official' production Estimates.

For other crops, the yield-rates are estimated on the basis of farmers opinion surveys and edited with the help of data on inputs, rainfall and weather conditions etc. The yield-rates thus arrived at are then applied to estimate the 'Official' estimates of total out-turn of the respective crops.

## B - Meteorology

This sub-section includes mean of minimum and maximum temperatures at selected stations from 1987 to 1996. The rainfall at the specified stations is recorded in millimetres instead of inches & cents (1" = 25.4 Millimetres) at 0500, 0800 and 1700 Hrs. PST daily by the Meteorological Observatories.

2. The Meteorological Observations recorded daily at different hours are copied by the Observers in Monthly Meteorological Register and this Register is sent to Regional Centre at 46-Gulberg Road, Lahore in the first week of each succeeding month. These Registers are then thoroughly scrutinized by the trained Meteorological Staff at Lahore and corrections are applied, where ever necessary.

3. The sums and averages and extreme ( maximum & minimum ) values of all the Meteorological Observations are also worked out by the scrutinising staff. On the basis of these monthly values over a long period of 30 years the normal values are worked out.

## IV. Limitations

The timely availability of statistics depends on two factors, first, the receipt of reports from the Field Staff and secondly, their tabulation at the Provincial level. As far as the acreage under various crops is concerned, the Bureau of Statistics has been trying to reduce the time-lag by collecting mauza-wise Goshwara Jinswars directly from the Revenue Field Staff through Director Land Records and by minimizing the tabulation time. The centralized collection and tabulation has reduced tabulation time appreciably.

ii) Most of the agricultural statistics are by-products of the administrative activities of the Revenue Department. Since the collection of Statistics is not primary aim of the Revenue Department, the system has not provided for quality control on statistics derived from its records. The compilation of figures at all levels is done manually which undoubtedly contains errors of coverage, classifications, summations etc.

V. Kharif and Rabi Crop Seasons run from April to September and October to March respectively.

## **EXPLANATORY NOTES ON FISHERIES SECTION**

Fisheries sector contains data on fish production (Quantity & Value) for the years 1992-93 to 1996-97. These data have been compiled on the basis of fish catches marketing recorded by the field staff of Fisheries Department in various districts of the Province. The annual price of commodity is calculated by taking the average of minimum and maximum transactions of different lots of fish in each month.

### **LIMITATIONS**

1. There is no Marketing Act to regulate the sale of fish in the Province.
2. At the primary marketing stage, the fish is not graded. The fish is exposed for sale by Arthis (Brokers) in different lots according to weight and freshness of catches irrespective of various species. The specimen with better individual weight and having comparatively better freshness normally fetch better price. There is often considerable variation in the wholesale price of different lots in the same market.
3. The conceptual basis of price is not uniform in different markets of the Province.
4. The staff responsible for collection of prices are not statistics-oriented. The prices are usually under reported.

### **STEPS FOR IMPROVEMENT**

The infra-structural organization of the department has been suitably strengthened to ensure reliable collection of statistical data. Special orientation courses are also organized in the Fisheries Training Centre for the in-service personnel to acquaint with the necessary technical know-how in relation to collection of statistical data.

## **EXPLANATORY NOTES ON FOODGRAINS STATISTICS SECTION**

This section includes data on the following topics:-

1. Procurement of Wheat by Food Department on Voluntary basis by District.
2. Procurement of Wheat by PASSCO on Voluntary basis.
3. Wheat Imports.
4. Releases of Wheat from Provincial Reserves.
5. Stocks of Wheat in Provincial Reserves.
6. Available Foodgrains Storage Capacity.
7. Sugar Production and Stocks.

These data are supplied by the District Offices of the Food Department on the basis of records maintained by them. Wheat offered voluntarily by growers, zamindars, traders, agents etc., is purchased at the procurement price fixed by the Government at the Procurement Centres established by the Food Department and PASSCO for the purpose.

Releases of wheat from Government Reserves mainly relate to the wheat issued to Roller Flour Mills for milling and sale to consumers through fair price shops at fixed prices. Wheat is also released to Roller Flour Mills to supplement the supplies of wheat flour available in the open market. These releases are issued as a measure to stabilize open market prices of wheat and wheat atta.

Stocks of wheat on the 1st of every month indicate the size of buffer stocks maintained by the Government as a level against rise in prices of wheat and wheat atta in the market.

The wheat procurement year runs from May to April following the harvesting of wheat of previous Rabi Season and the Sugar production season runs from October to June.

**EXPLANATORY NOTES  
ON  
FOREIGN TRADE SECTION**

Foreign trade statistics refer to the movement of goods into and out of the customs area of Pakistan and include imports, re-imports, exports and re-exports carried through sea, land and air routes but exclude in-Transit Afghan Trade.

2. Exports statistics represent movement of goods out of Pakistan to foreign countries. Re-exports statistics cover imported goods subsequently exported without further processing. Exports include bunker fuels supplied to ships and aircrafts and also goods sent by letter and parcel post. Exports include dutiable and non-dutiable articles of baggage and personal effects of passengers, trade-in transit through Pakistan, gold and silver coins or bullion and currency notes and defence stores.

3. Statistics of imports represent the arrival into Pakistan of goods from foreign countries released by customs authorities either directly or from bonded ware-houses and intended for home consumption or for re-exportation. Imports also include goods brought in by foreign diplomatic missions, goods salvaged from or disposed of by ships in mid-stream and articles received through letter and parcel post. Exported goods, if any, subsequently re-imported from foreign countries without any processing have been excluded from exports. Imports are exclusive of imports into bond, defence stores, gold and silver coins or bullion, foreign currency notes, dutiable or non-dutiable articles of baggage and personal effects of passengers and in-transit-trade through Pakistan.

4. The sources of information are the shipping bills and bills of entry for sea and air borne trade filed with customs authorities and weekly or fortnightly returns from various land stations. The valuation in respect of exports & imports are based on F.O.B. and C.I.F. respectively.

5. Commodities of export and import are classified on the basis of Pakistan Standard Trade Classification (PSTC) which is an adaption of UN Statistical International Trade Classification.

6. For direction of trade, countries have been mainly classified by geographical areas. Exceptions are European Economic Community (EEC), Economic Cooperation Organization (ECO) and European Free-Trade Area (EFTA).

**EXPLANATORY NOTES  
ON  
FOREST STATISTICS SECTION**

The data included in this Section cover the designated forest areas by legal status and the out-turn and value of timber & firewood produced from the same.

**I. DESIGNATED FOREST AREAS**

These include all the wooded and non-wooded areas and the barren lands which are under the administrative control of the Punjab Forest Department for the afforestation and management purposes. It includes all the coniferous forests, scrub forests, riverian forests, irrigated plantations, linear plantations and range lands.

**The brief definitions of the categories of the Forest areas by legal status are:-**

**i) RESERVED FORESTS**

The forest area under the control of the Forest Department declared as Reserved Forest under the Forest Act, 1927. The rights and privileges are normally limited and settled.

**ii) PROTECTED FORESTS**

The forest area under the control of Forest Department which has been declared as Protected Forest under the Provision of Forest Act, 1927.

**iii) UN-CLASSIFIED FORESTS**

The Government Forests which are neither Reserved Forests nor Protected Forests.

**iv) SECTION-38 AREA**

Private land area handed over voluntarily by the owners to the Forest Department for management under Section-38 of Forest Act, 1927.

v) **CHOS ACT AREA**

Land taken up for soil and water conservation under the Chos Act.

vi) **RESUMED LANDS**

Land taken over by Government under various Reforms or Martial Law Regulations.

vii) **GUZARA FORESTS**

The Forest area which are the joint property of the villagers and are being managed presently by the Forest Department.

**II. Definitions of some Vegetational types of Forests are given below:-**i) **CONIFEROUS FORESTS**

Natural forests of cone bearing trees with usually needle like leaves mostly occurring in the hilly areas at elevation of 3500 feet above the sea level.

ii) **IRRIGATED PLANTATIONS**

Man-made forests in the shape of blocks in the canal irrigated track.

iii) **RIVERIAN FORESTS**

Forests occurring in varied sized patches along the river banks.

iv) **LINEAR PLANTATIONS**

Rows of trees planted in the land strips, alongside canals, roads and railway lines.

v) **RANGE LANDS**

Naturally vegetated lands uncultivated due to adverse ecological conditions useable for the production of forage for animal consumption.

**III. PRODUCTION AND VALUE OF TIMBER & FIREWOOD**

The information about the production and value of timber and firewood related to Forest Department managed forests only.

## EXPLANATORY NOTES ON FUEL AND POWER SECTION

I) This section includes data on the following topics:

1. Gas Consumption by Consumer Group
2. Installed Generating Capacity of Power Stations, National Grid, WAPDA
3. New Electricity Connections Given and Applications Pending with WAPDA by Consumer Group
4. Electricity Consumers and Units Sold by Categories, WAPDA System
5. Electricity Revenue Assessed by Type of Consumers, WAPDA
6. Generation of Energy in Pakistan and the Punjab under WAPDA System
7. Villages Electrified by Province.

II) Definitions of important terms used in this section are as under:-

### A - POWER STATIONS

1. Principal Hydel

The Power Stations utilising water heads available at the Dams come under Principal Hydel. The Prime movers of the generators are run by discharging water through water turbines.

2. Small Hydel

The Power stations utilising water heads available from the small Dams across canals come under small Hydel. The Prime movers of the generators are run by discharging water through water turbines.

3. Thermal

Thermal stations are based on steam turbines utilising steam raised in boilers using Sui Gas as a fuel in the boilers.

4. Gas

Unlike the conventional thermal stations, natural (Sui) Gas is burnt and is expanded directly in the gas turbines which are prime movers for the generators.

5. Diesel

Conventional Diesel Engines using high speed diesel oil are used as prime movers for the generators.

## **B - TARIFF**

### 1. **Domestic**

General Supply for the purpose of this Tariff, means a supply for lamps, fans and other single phase appliances such as heaters, cookers, radiators, airconditioners, refrigerators and domestic tubewells etc. The rated capacity of any motor used in such appliances shall not, however, exceed 4 kilowatts.

### 2. **Commercial**

General supply for the purpose of this Tariff, means a supply for lamps, fans and other single phase appliances such as heaters, cookers, radiators, airconditioners, refrigerators and tubewells for non-agricultural purposes etc. The rated capacity of any motor used in such appliances shall not, however, exceed 4 kilowatts.

### 3. **Industrial**

'Industrial Supply' for the purpose of this Tariff, means a supply for bonafide industrial purposes in factories, and also for water pumps, and tubewells operating on three phase 400 volts other than those meant for the irrigation and reclamation of agricultural land, and includes a supply for lamps and fans required for the offices and for the normal working of the industry upto but not exceeding a total of 5 per cent of the total units consumed for motor power during a month.

### 4. **Agricultural**

Means a supply for Light Irrigation Pumps and/or Tubewells intended solely for irrigation or reclamation of agricultural land or forests and includes supply for lighting of the tubewells chamber which shall also be charged at the above rates.

### 5. **Public Lighting**

Means a supply given to a local body charged with Public Lighting for the purpose of illuminating Public lamps within the area of its jurisdiction.

### 6. **Traction**

The electricity supplied to railways for running trains e.g. Lahore-Khanewal section.

### 7. **Bulk**

For the purpose of this Tariff, means a supply given in bulk at one point to:-

- i) Licensee (Licensed under Part II of the Electricity Act, 1910) for the Purpose of further distribution and resale in his area of supply.
- ii) A Non-Licensee (Permitted under Part II of the Electricity Act, 1980) to engage in the business of supplying energy for the purpose of further distribution and resale in his area of supply.
- iii) Other Consumers e.g. Railways, M.E.S., P.A.F., Cantonment Boards and other Government and Semi-Government and approved institutions having their own distribution facilities for the purpose of further distribution within their respective jurisdiction.

8. **Tariff 'H'**

For one point supply to residential colonies attached to premises of industrial supply Consumers who have their own distribution facilities with their own colonies (A.C. supply).

**C - Gas**1. **Domestic Consumers**

Domestic consumers include residential colonies, mosques, churches, temples, madrassas, other religious places and hostels attached thereto, Govt. and Semi-Govt. offices, hospitals, Govt. Guest Houses, Armed Forces Messes/Langers, Universities, Colleges, Schools, Orphanages and other charitable institutions.

2. **Commercial Consumers**

All establishments registered as commercial units with local authorities or dealing in consumers items for direct commercial sale like cafes, bakeries, milk shops, tea stalls, canteens, barber shops, laundries, tandoors, places of entertainment like cinemas, clubs and theatres, all private offices, clinics and maternity homes.

3. **Industrial Consumers**

All consumers engaged in the processing of industrial raw material into value-added finished products irrespective of the volume of gas consumed.

## EXPLANATORY NOTES ON HEALTH SECTION

Annual data in respect of the following items is presented in this section:-

- 1) Number of Health Institutions.
- 2) Number of Beds in Health Institutions
- 3) Number of In-door & Out-door Patients Treated in Health Institutions
- 4) Medical & Para-Medical Personnel

### Coverage

These statistics relate to Hospitals, Dispensaries, T.B. Clinics, Rural Health Centres, Basic Health Units and Maternity & Child Health Centres located in the Punjab and administered by Health Department, Home Department, Auqaf Department, Local Bodies, Pakistan Railways, WAPDA, Punjab Employees' Social Security and Private Institutions aided by Government and located in Punjab province.

The Health Institutions belonging to the federal Government Defence Services and Private Doctors are not being covered.

### Data Collection System

#### a) Health Department

The Health Institutions belonging to Health Department in the province are required to keep record of all the out-door and in-door patients in an 'Abstract Register'. From the information recorded in the 'Abstract Register', and other relevant registers, all types of Health Institutions are required to supply annual statistical returns to the District Health Offices. The information supplied relates to number of patients treated for various diseases, number and types of operations performed etc. The District Health Officers are to submit the consolidated returns to the Divisional Health Directorates where the information is tabulated at the divisional level and sent to the Provincial Health Directorate for consolidation at Provincial level.

b) **Other Department/Organizations**

Pakistan Railways, Home Department, WAPDA and Punjab Employees' Social Security collects the annual Statistics from their health institutions and compile the data by tehsil/district/division/province levels at their Head Offices.

**Definitions**

**Health Institutions**

A health institution is defined as an institution which provides health services i.e. curative and preventive to all/specific class of the public as out-door/ in-door patients.

**Hospital**

Hospital is an institution having ten or more than ten beds. This definition will, however, not be applicable where an institution has specifically been named by the Government e.g. Rural Health Centre, Mustafabad, Tehsil and District Kasur having eighteen (18) beds.

**Dispensary**

A dispensary is an institution having less than ten beds.

## EXPLANATORY NOTES ON MANUFACTURING INDUSTRIES SECTION

This Section includes statistics on the following topics:-

- i) Monthly Survey of Industrial Production and Employment.
- ii) Annual Census of Manufacturing Industries (CMI).
- iii) Ad-hoc Census of Small and Household Manufacturing Industries (CSHMI): 1988.
- iv) Registered Factories and their Employment by District and Industry.
- v) Industrial Credit.

### **MONTHLY SURVEY OF INDUSTRIAL PRODUCTION AND EMPLOYMENT**

Statistical tables included in this section contain data on production and employment for the years 1987-88 to 1996-97 and monthly data for 1996-97 as well in respect of 34 items manufactured by 21 selected large scale industries in the Punjab. These industries accounted for about 66.03% of "Total Value Added" in manufacturing sector in the Province during 1980-81. Employment during the year is monthly average.

This information has been collected through Bureau's Monthly Survey of Industrial Production and Employment which was started in October, 1971. Industry-wise proforma are used for the purpose. Data from non-responding factories is collected by Bureau's Officials through personal visits. The results of the Survey for a month are generally finalized by the end of the following month. Employment data for a factory is shown only once against the industry in which it is classified on the basis of its major products even though it produces more than one item.

**Coverage** is complete in respect of Cotton Cloth (mill sector), Woollen and Worsted Cloth, Jute Textile, Sargar, Cigarettes, Cement, Caustic Soda, Sulphuric Acid, Fertilizers, Paper and Paper Board, Bicycles, Soft Drinks and Juices. Coverage for the remaining manufactured products is specified below:

1. Cotton Yarn and Vegetable Ghee: It excludes some units.
2. Woollen Yarn, Knitting Wool and Blankets: It excludes some units.
3. Leather Tanning: All large Tanneries are covered.
4. Footwear: 13 large and medium size factories including Bata, Service and Raja are being covered. Production of these factories was about 98% (of Footwear Production) of registered units of the Province.
5. Steel Re-rolling:- According to Bureau's Establishment Survey of Steel Re-rolling Industry conducted during 1975-76, about 90% of the Production is being covered in the current survey.
6. Diesel Engines:- 23 Factories whose production is about 75% of the total production of Diesel Engines are being covered.
7. Electric Fans:- All large and medium size factories are covered.

**Steps for Improvement:-** To complete coverage in respect of Woollen Textile, Leather Tanning, Footwear, Electric Fans, Steel Re-rolling Industries and Diesel Engines, attempts are being made to ensure response from outstanding factories.

Efforts are made to keep the list of factories up-to date in consultation with Central Board of Revenue, PICIC, ADBP and Directorate of Labour Welfare, Punjab.

Scope of the Monthly Survey of Industrial Production and Employment is being extended to some more Industries.

### **ANNUAL CENSUS OF MANUFACTURING INDUSTRIES (CMI)**

This section contains tables on Summary Statistics (Fixed Assets, Employment, Employment Cost, Industrial Cost, Value of Production, Gross Value Added of registered factories reporting for the annual Census of Manufacturing Industries for the years 1987-88 to 1991-92. The Census is conducted under Industrial Statistics Act 1942, through a co-operative programme shared by Federal Bureau of Statistics, Government of Pakistan, Directorate of Industries and Mineral Development, Punjab and Bureau of Statistics, Punjab with following distribution of work:-

#### **Federal Bureau of Statistics:-**

- a) Planning of Census in collaboration with Provincial Bureaus of Statistics and Directorates of Industries.
- b) Preparation of Questionnaire, Tabulation Plan and Editing Instructions in consultation with all concerned Federal Ministries, Provincial Departments and Autonomous and Private Organizations.
- c) Preparation and Publication of CMI tables at national level.
- d) Maintenance of an up-to-date list of manufacturing establishments.
- e) Printing and Mailing out of Questionnaires.

#### **Directorate of Industries and Mineral Development, Punjab:-**

- a) Notification of the questionnaires.
- b) Collection of CMI returns.
- c) Preliminary editing of CMI returns.

### **Bureau of Statistics, Punjab:-**

- a) Statistical examination of CMI returns.
- b) Computer processing of CMI returns.
- c) Conducting of Non-response Survey for estimation of data for the establishments not reporting for the Census.

### **Scope & Coverage:**

All factories, carrying on manufacturing or repairing activities and registered or eligible for registration under Section 2 (J) or 5 (i) under the Factories Act 1934 (Amended in 1973), are covered under the Census. It, however, excludes Defence and other Government establishments including Railway workshops which provide ancillary facilities and do not manufacture or repair anything for commercial purpose.

### **Definitions:**

Important terms used in the section are defined as under:-

#### **i) REGISTERED FACTORIES:**

An establishment is said to be registered under Section 2 (J) of Factories Act 1934, (Amended in 1973) if ten or more workers are working on any day of the preceding twelve months and in any part of which manufacturing process is being carried on with or without the aid of power or is ordinarily so carried on, but does not include Mine subject, which comes under the operation of Mines Act, 1923, whereas the establishments having employment between 5-9 workers during the year are eligible for registration under section 5 (i) of the Factories Act.

ii) **GROSS VALUE OF FIXED ASSETS:**

It includes the gross value of land, building, plant, machinery, transport and other fixed assets i.e. equipment, furniture etc., as at the end of the year.

iii) **EMPLOYMENT:**

It is the total average daily employment during the year computed from the monthly employment data reported in CMI returns adjusted for contract labour.

iv) **EMPLOYMENT COST:**

It includes wages and salaries, cash and non-cash benefits and the amount paid to contract labour.

v) **INDUSTRIAL COST:**

It includes cost of raw materials, fuel and electricity consumed and payments made to others for repair, maintenance of building and machinery and processing of establishments materials.

vi) **GROSS VALUE OF INDUSTRIAL PRODUCTION:**

It includes value of products and by-products, sale-proceeds from industrial waste, receipts for industrial work done and services rendered to others, sale of electricity and value of 'net work in process'. The value of products and by-products includes indirect taxes.

vii) **GROSS VALUE ADDED**

This is worked out by subtracting industrial cost from the gross value of industrial production.

**Limitations of CMI**

1. The mailing list used for the census may not be up-to date.
2. The reported data contained reporting errors and inconsistencies, which were corrected on the basis of available supplementary information or/and past data.

3. Census results become available with a time-lag of 2-3 years due to the time taken for collection, editing and tabulation processes.
4. Size and nature of non-response varies from year to year. Since non-response surveys could not be conducted for all the years, the Census results were not adjusted for non-response, they may not be comparable from year to year.

The Bureau of Statistics has, during recent years, taken the following steps to improve the Census Results:-

1. List of registered factories is being kept up-to-date.
2. Reported data is subjected to manual as well as computer statistical editing, before final tabulation. Missing information estimated.
3. The cases, where reporting errors cannot be corrected without changing the reported information significantly, managements of the concerned units are asked to reconcile the discrepancies observed in their data. Corrections are made in the light of their replies.
4. Efforts are being made to complete editing and tabulation as early as possible, after receipt of returns from Directorate of Industries and Mineral Development, Punjab.

### **SMALL AND HOUSEHOLD MANUFACTURING INDUSTRIES**

Statistical tables included in this section present some summary statistics extracted from the Survey Report of Small and Household Manufacturing Industries 1988, issued by the Federal Bureau of Statistics, Statistics Division, Karachi.

This survey report provides information about number of manufacturing units, book value of fixed assets at the end of the year, production value, industrial cost, value added and wages and salaries. The survey was conducted in the urban areas of the four provinces of Pakistan, defined as such in population census 1981. Tribal areas and special agencies in Peshawar and D.I. Khan Division of NWFP are excluded from the coverage of the survey. Enumeration of establishments and household has not been under-taken in military restricted areas and other prohibited places as permission was not granted by the authorities.

The survey covered all households and small establishments engaged in manufacturing activities provided the establishments were not registered under Factories Act 1934. Repair and service establishments like repair of shoes, cycle, watch and clock, radio & television, motor car, electric appliances of domestic use were not covered in the survey. However, the establishments engaged in repair products of industrial use like plant and machinery, industrial refrigerator and cooling plant, boats and ships etc. were considered as manufacturing activity and therefore, were covered.

### **Definitions:**

- i) **"Manufacturing Activity"** is defined as the mechanical or chemical transformation of inorganic or organic substances into new products whether the work is performed by power driven machines or by hand or whether it is done in a factory or in the workers house. The assembly of component parts of manufactured products was also considered as manufacturing.
- ii) **"Small Manufacturing Establishment"** If an establishment is engaged in manufacturing activity, then this establishment has been considered as small manufacturing establishment provided the establishment was not registered under Factories Act, 1934.
- iii) **"Manufacturing Household"** If in a household people are living and also carrying on some manufacturing activity then this household has been treated as a manufacturing household unit.
- iv) **"Book value of fixed assets at the end of the accounting year"** is equal to the book value at the beginning of the accounting year plus additions and alterations made during the accounting year, less sales during the accounting year less value of loss and the depreciation charged for the year.

- v) **"Products and by-products manufactured"** includes items produced or manufactured in the Mfg. process. In addition to the data on value of individual items produced, data regarding the value of by-products, wastes & of fixed assets produced by the establishment for its own use (if any) are included. Valuation of individual items of products and by-products is made at the ex-factory price or sales and net of discount, rebates and allowances and including indirect taxes i.e. sales tax and excise duty.
- vi) **"Industrial Cost"** means the cost of fuel, electricity and cost of raw material consumed.
- vii) **"Value added"** is derived as value of products and by-products plus receipts from work done for others minus cost of fuel and electricity consumed minus payment made to others minus cost of raw materials consumed.
- viii) **"Wages and salaries paid"** during the last accounting year are reported as wages and salaries including payments for leave or vacation. It covers payments made for the work done on piece rate, hourly, weekly, monthly, or by any other method of compensation and for regular time and over time including commission etc.

### **Limitations and deficiencies:**

The report has some limitations in respect of degree of accuracy of data on account of the following reasons:-

1. The owners/occupiers of the units in most cases are uneducated and they generally did not appreciate the importance of the survey. Some times they were found to be reluctant in the supply of data on account of fear for taxation and information furnished by them could be biased to some extent.

2. The owners of small and household manufacturing units do not usually maintain accounts of their business. Whatever information that has been obtained was usually through monthly estimates. The interviewers, therefore, had to make cross checking of their replies to ensure internal consistency of data.
3. Data on fixed assets in most cases, is based on verbal estimates provided by the respondents as they did not maintain proper records of such assets.
4. Figures on employment cost, industrial cost, miscellaneous cost and value of production were collected, mostly on last month basis. The yearly figures have been arrived at multiplying the monthly figures by number of months worked by the establishment/household during the reference period.

### **REGISTERED FACTORIES AND THEIR EMPLOYMENT BY DISTRICT AND DIVISION AND MAJOR INDUSTRY GROUP**

Tables on Distribution of registered factories employing persons less than hundred, and hundred or more by district and division and major industry group and as on 30th June 1995 and 1996 have also been added to identify the areas of industrial concentration and the type of industrial activity. These tables have been extracted from Bureau's Directories of Registered Factories in the Punjab as on 30th June 1995 and 1996 (which contain information on names and addresses of registered factories arranged alphabetically within industry alongwith their status of ownership and legality, fixed assets & employment sizes and year of commencement of production).

\* Production of Cloth in the Punjab is in linear million metres.

a) Excludes the production of man-made yarn/fibre.

b) Excludes the production of man-made cloth/fabrics.

c) Includes Islamabad Units but excludes Cooking Oil Produced by Ghee Mills.

d) Includes Sugar produced from Cane, Sugar Beet and Gur.

## EXPLANATORY NOTES ON POPULATION SECTION

### I. Time Schedule of Population Censuses

The four decennial censuses held in Pakistan were conducted according to the following schedule:

Census Year	Enumeration Period	Census Date	Inter Censal Interval (Years)
1951	9th to 28th February, 1951	28th February, 1951	
1961	12th to 31st January, 1961	31st January, 1961	10.00
1972	16th to 30th September, 1972	16th September, 1972	11.62
1981	1st to 15th March, 1981	1st March, 1981	8.46

### II. Population Projections:

Growth rates and estimated population by tehsil in Table No. 207 and estimated urban population by Municipal Corporation, Municipal Committees, Town Committees and Cantonment Boards in Table No. 217 have been computed by using the following formula:

$$P_1 = P_0 \left(1 + \frac{r}{100}\right)^T \text{ Where}$$

$P_0$  = Population of base year

$P_1$  = Population of current year

$r$  = Growth rate

$T$  = Time i.e. Inter Censal Interval

Population estimates for Pakistan and Punjab have been computed by applying growth rates used in the booklet "Women and Men in Pakistan 1995" issued by Federal Bureau of Statistics as under:-

<u>Period</u>	<u>Growth Rate</u>
1981 Census to 31 December, 1992	3.1%
1st. January 1993 to 31st. December, 1994	3.0%
1st. January 1995 to 31st. December, 1997	2.8%

Tehsil-wise population estimates are, however, based on tehsil-wise intercensal growth rates (1981/1972) with the adjustments on the basis of above mentioned provincial growth rates.

## **EXPLANATORY NOTES ON PRICES SECTION**

This section includes data on the following topics:-

1. Retail Prices of nine essential commodities.
2. Monthly Average Wholesale Prices of Wheat , Rice (Basmati), Kappas (American) and Gram (Whole).
3. Index Numbers of Wholesale Prices.
4. Index Numbers of Consumer Prices.
5. Inflation Rates.
6. Spot Bullion Quotations.
7. Weekly Exchange Rates of U.S. Dollar.

### **RETAIL PRICES**

Bureau of Statistics, Punjab collects retail Prices of 57 selected commodities at all the Divisional Headquarters of the Province. The prices are daily collected by the staff posted at Divisional Headquarters and transmitted to the Headquarter's office at Lahore the same day. Daily Price situation report is submitted to the Secretary, Punjab Prices and Supplies Board. This section includes yearly data on average Retail Prices of nine essential commodities i.e. Wheat Atta, Gram Dal, Sugar White, Vegetable Ghee, Mutton, Beef, Kerosene Oil, Potato and Onion for the years 1990-91 to 1996-97 and monthly data for the years 1996-97 (July - June) and 1997-98 (July - September).

### **WHOLESALE PRICE INDEX (WPI)**

Wholesale Price Index Numbers are designed to measure the directional movement of Prices in the Primary and Wholesale Markets. Prices used are generally those which conform to the Primary sellers, realizations at ex-factory or at an organized wholesale level.

The Wholesale Price Index Numbers (WPI) were originally computed with 1960-61 as the price base which was subsequently switched by the Federal Bureau of Statistics over to 1959-60 base. Later on, new series with base 1969-70 , 1975-76 and 1980-81 with enlarged coverage were compiled. Now the base year has been shifted to 1990-91.

## **CONSUMER PRICE INDEX (CPI)**

Consumer Price Index Numbers are prepared in order to measure the percentage change in the cost of purchasing a constant basket of goods and services of a particular population during a given period of time.

Series of Consumer Price Index Numbers having 202 items with price base 1969-70 and weight base 1972 was started in 1973. Another series of CPI with price base 1975-76 and weight base 1978 covering 357 items was started. Later on, another series with 1980-81 as base year covering 466 Consumer items was taken up.

With the changes in consumer preferences a new series of CPI with 1990-91 as base year has been computed. This series covers 467 consumer items encompassing almost the entire range of family's basket of goods and services. The expenditure weight for the series was derived on the basis of Family Expenditure Survey conducted in 1989. The survey covered Industrial, Commercial and Government employees with income groups upto Rs.1500/-, Rs.1501/- to 4000/-, Rs. 4001/- to Rs.7000/-, Rs.7001/- to Rs.10000/- and above Rs. 10000/-. The series have ten major expenditure groups viz.(i) General (ii) Food, Beverages & Tobacco, (iii) Apparel Textile and Footwear, (iv) House Rent, (v) Fuel & Lighting, (vi) Household Furniture & Equipment etc, (vii) Transport & Communication, (viii) Recreation, Entertainment and Education (ix) Cleaning Laundry & Personal appearance (x) Medicine.

## **RATE OF INFLATION**

Rate of inflation can be measured through CPI, WPI or implicit deflator of GDP, but the common practice to measure inflation is through CPI as given in this bulletin.
