PREFACE

This 8th issue of the statistical yearbook of Azad Jammu & Kashmir, contains information relating to the Year 1996 in addition to some earlier years. It is the 4th issue in the series that has been reproduced from the computerized database. This present publication provides valuable quantitative information on area, population, Agriculture, Food-grains, Livestock, Fisheries, Tourism Industries, Minerals, Education, Health, Energy, Roads, Housing, Local Bodies, Rural Development, Co-operatives, Public Finance, Public sector employment labour and household income in Azad Kashmir. The data mostly relates to Azad Kashmir but information for some sectors is reported at national level besides covering provinces. In addition to reporting data in tabular form, graphic techniques of data presentation have also been used.

It will also be worthwhile to mention here about the out-datedness of some of its survey and census data as we have no choice but to report older data in the absence of up-dated information.

The hard work put in by Messrs. NISAR HAIDER, Assistant Chief (Statistics), MR. SALEEM SHAHZAD MALIK (Research Officer Statistics) and their colleagues in bringing out this voluminous work deserves due appreciation. We are thankful to all those departments and Agencies, in particular Federal Bureau of Statistics, Ministry of Agriculture Government of Pakistan and meteorological office Lahore, who made available necessary information enabling us to bring out this issue.

It is hoped that Planners, Development Managers, Researchers and Policy-makers as well as public in general both inside and outside Azad Kashmir will find this publication useful. Any comments and suggestions for improvement are welcome.

INTRODUCING AZAD JAMMU & KASHMIR

Azad Jammu & Kashmir is the liberated part of the State of Jammu & Kashmir. It has an area of 5134 sq. miles or 13297 sq. kilometres. It is situated between longitude 73-75 and latitude 33-36. The topography is mainly hilly and mountainous with valleys and plains in some places. Climatically Azad Kashmir enjoys a considerable measure of variety. The North and North Western mountains are extremely cold in winter while the summer months of April to September are very pleasant. The plains of Mirpur, Kotli, and Bhimber are extremely hot in summer with a cold and dry weather in winter. The rains are of monsoon type; the average rainfall is approximately 150 centimetres annually.

The main rivers are the Jhelum and the Neelum. The Jhelum river originates in the verinog spring (occupied Kashmir) and the Neelum river comes from the upper area of the Neelum Valley (occupied Kashmir). There is another smaller river called Poonch, flows through District Kotli, comes from the mountains of occupied Kashmir and joins the river Jhelum at Mangla. Azad Kashmir consists of seven districts namely MUZAFFARABAD, BAGH, POONCH, KOTLI, MIRPUR, SUDHMUTI and BHIMBER. Muzaffarabad city of the Muzaffarabad district is the capital of Azad Kashmir and biggest district, both in respect of population and area.

The area has an agricultural economy mainly dependent upon rainfall. MAIZE, WHEAT & RICE are the main crops of Azad Kashmir. Among fruits, APPLES, APRICOTS, PEACHES, WALNUTS, ALMONDS, PLUMS, PEARS, CHERRIES, STRAWBERRIES, and CITRUS are grown in different parts of the area. Natural resources are not fully explored yet, but some production of coal, mica, limonite and fireclay has been made. The industry sector which lagged behind in the past, is now being given special attention. Textile industry. Ghee and light engineering industries have been set up at Mirpur.

Urdu is the official language of Azad Kashmir besides Pahari, Punjabi, Gojri, Hindko, Kashmiri, and Kohistani languages spoken by the people of Azad Kashmir. There are two old forts in Muzaffarabad city and historical monuments of Buddhist university at Sharda 136 kilometres away from Muzaffarabad on Muzaffarabad-Sharda Road are the sites which remind the rich and glorious past of the people of the area. The population of Azad Kashmir counted 1,900,000 according to the 1981 population census and can be estimated to have increased to 2,900,000 in 1996. Out of the population of AJK, in 1981 1,021,903 persons were males and 958,163 females (1981 census). The literacy rate was around 28% in 1981 and 43% estimated in 1996.

The area under the control of forest department of Azad Kashmir is about 566,969 hectares which is 42% of the total area, while the area under actual forests is 12% of the total geographical area. In Pakistan, only 3% of the area is under forests.

At the moment the total length of roads in Azad Kashmir is 6789 kilometres (Roads made by LG&RD also included) of which 2077 kilometres is high type and 4712 low type.

PLACES OF INTEREST

Azad Kashmir due to its high mountains, lush green forests and beautiful valleys has lot of attraction for tourists. The prominent places of interest are mentioned below:

- 1) **MUZAFFARABAD**
Situated on the confluence of river Jhelum and Neelum in the North West of Azad Kashmir, lies the city of Muzaffarabad, the capital of Azad Kashmir. The city of Muzaffarabad is 140 kilometres away from Rawalpindi, is half way between Rawalpindi and Srinagar and presents a beautiful scenic spot. Prominent places of interest include two old forts, the new Secretariat building, the Jalalabad gardens, the High Court building, the Supreme court building, Assembly building, Prime Minister Secretariat building K.H. Kurshid library and Narnal Rest house Muzaffarabad. The site for construction of the Azad Jammu & Kashmir University has been selected and construction work is in progress. A small Airport meant for Twin-otter flight has also been constructed in Muzaffarabad.
- 2) **RAWALAKOT**
Rawalakot city is the headquarter of district Poonch. It is situated at an altitude of 1615 metres (5000 feet) above sea level in a valley almost 10/15 kilometres long and wide. Surrounded by high and green clad mountains, this valley is full of natural flora and fruit orchards. Its cool pine air, fascinating scenic beauty and flower filled slopes are some of the gifts which nature has generously bestowed on this land.

3) **KOTLI**

Kotli city is the headquarter of district Kotli. It is situated in a spacious valley surrounded by green clad mountains. The Poonch river is flowing through the valley. Kotli is 137 kilometres away from Rawalpindi. The land is very fertile and almost every kind of fruit and vegetable can be grown here. The people of Kotli are famous for their hospitality and friendliness.

4) **MIRPUR**

Mirpur is the largest city of Azad Kashmir. It is 40 kilometres away from Dina (District Jhelum) and 136 kilometres from Rawalpindi. The old city of Mirpur was drowned under the dam reservoirs. The new city has been constructed according to modern town planning principles and architecture. It has many beautiful official and private buildings. The Mangla dam which is one of the largest earth dams in the world, provides both water and electricity to the people of Azad Kashmir and Pakistan, lies just adjacent to the city of Mirpur.

5) **BHIMBER**

Bhimber is situated 48 kilometres away on the northern side of Gujrat city, is a historic place and scholars have identified it as the death place of the Mughal Emperor Jehangir. The Mughal Emperors used to pass across Bhimber while going to and from Kashmir. The Emperor Jehangir died in Bhimber on his way to Delhi from Kashmir. His stomach along-with other internal parts were buried in Bhimber. The remains of the old Mughal Forts, Baths, baowlies and other buildings can still be seen in the town.

Note 1: a tourist is considered a person, regardless of nationality, resident in Pakistan or Azad Kashmir who travelled to A.K. within its boundaries and stayed outside his usual place of residence for a period of at least 24 hours but not more than 90 days for any reason other than following occupation remunerated at the place of visit. The purpose of journey could be classified under any one of the following heads: pleasure, recreation, holiday, sports, business, social calls, mission, meeting, conferences, health, study and religion.

Note 2: The figures are based on one day traffic counts on 14 strategic locations in A.K., from 20 April 1981 to the beginning of May. The figures have then been multiplied to obtain annual averages.

Note 3: 35.8% of tourists are Pakistani's, 63.8% are Kashmiri's, and 0.4% are foreigners in the survey.
