

**ANNUAL ANALYTICAL REPORT ON  
EXTERNAL TRADE STATISTICS OF  
PAKISTAN, 2019-20**

GOVERNMENT OF PAKISTAN  
MINISTRY OF PLANNING, DEVELOPMENT & SPECIAL INITIATIVES  
**PAKISTAN BUREAU OF STATISTICS**  
External Trade Section - Karachi  
AUGUST, 2020

## **FOREWORD**

Pakistan Bureau of Statistics (PBS) is the prime official agency of Pakistan, responsible for collection, compilation and dissemination of reliable and timely statistical information to the policy makers, planners and researchers. It publishes a variety of reports, based on primary and secondary data, especially on economics and social aspects of the country. PBS has made commendable efforts to improve and update statistical methodology in general and trade statistics in particular.

COVID-19 has pushed the global economies towards a recession. The synchronized nature of the downturn has amplified domestic disruptions around the globe. Globally, trade contracted by close to -3.5% (year over year) in the first quarter, reflecting weak demand, the collapse in cross-border tourism, and supply dislocations related to shutdowns (exacerbated in some cases by trade restrictions). Pakistan has also been affected by the unprecedented health and economic shocks caused by the outbreak of Coronavirus with smart lockdown. During the current fiscal year, Pakistan's economy has undergone a sharp contraction with a growth of -0.38%. Cognizant of the extended duration and uncertainty of the COVID-19 worldwide, the government of Pakistan has chalked out sector-specific policy interventions and structural reforms to cope with the situation. Government is constantly monitoring the international and domestic conditions to ensure stabilization to stir growth in this challenging environment.

Pakistan's trade deficit witnessed significant reduction during the FY2019-20, declining by 27.12% as compared to the previous year. The Country's trade deficit during FY2019-20 stood at \$23.180 billion against the deficit of \$31.805 billion during FY2018-19.

During FY2019-20, country's exports registered approximately 6.81% decline, falling from \$22.958 billion last year to \$21.394 billion during the current year, whereas the imports decreased from \$54.763 billion to \$44.574 billion, showing a sharp decline of 18.6%.

Effort has been made to make this report comprehensive, informative and a useful document for researchers, planners, economists and other beneficiaries at large. Further questions, clarifications, comments, feedback and suggestions on this report are welcomed.

I would like to congratulate the PBS Trade Statistics team who worked with full dedication for the successful completion of this task.

**Islamabad, August , 2020**

## 1. GLOBAL TREND AT A GLANCE

According to World Economic Outlook (WEO), global growth is projected at  $-4.9\%$  in 2020<sup>1</sup>, 1.9 percentage points below the April 2020 forecast. The COVID-19 pandemic has had a more negative impact on activity in the first half of 2020 than anticipated, and the recovery is projected to be more gradual than previously forecast. In 2021 global growth is projected at  $5.4\%$ . Overall, this would leave 2021 GDP some 6.5 percentage points lower than in the pre-COVID-19 projections of January 2020. The adverse impact on low-income households is particularly acute, imperiling the significant progress made in reducing extreme poverty in the world since the 1990s.

As with the April 2020 World Economic Outlook (WEO) projections, there is a higher-than-usual degree of uncertainty around this forecast. The baseline projection rests on key assumptions about the fallout from the pandemic. In economies with declining infection rates, the slower recovery path in the updated forecast reflects persistent social distancing into the second half of 2020; greater scarring (damage to supply potential) from the larger-than-anticipated hit to activity during the lockdown in the first and second quarters of 2020; and a hit to productivity as surviving businesses ramp up necessary workplace safety and hygiene practices. For economies struggling to control infection rates, a lengthier lockdown will inflict an additional toll on activity. Moreover, the forecast assumes that financial conditions—which have eased following the release of April 2020 WEO—will remain broadly at current levels. Alternative outcomes to those in the baseline are clearly possible, and not just because of how the pandemic is evolving.

### 1.1 Contraction in Global Trade

The synchronized nature of the downturn has amplified domestic disruptions around the globe. Trade contracted by close to  $-3.5\%$  (year over year) in the first quarter, reflecting weak demand, the collapse in cross-border tourism, and supply dislocations related to shutdowns (exacerbated in some cases by trade restrictions).

## 2. EXPORTS OF PAKISTAN

The export target was set at US\$ 26.2 billion for FY2019-20. However, exports registered a decline of -6.81% during FY2019-20 as Pakistan's exporters are facing declining demand in overseas markets and difficulties in executing existing orders due to Covid-19. Exports during FY2019-20 reached US\$ 21.39 billion as compared to US\$ 22.96 billion during FY2018-19.

Before COVID-19, export performance was satisfactory both in terms of products and destination diversification. In terms of product diversification, surgical goods and medical instruments recorded a growth of 8.3% during July-March FY2019-20, while, in terms of destination diversification, Ministry of Commerce has started to explore new markets, especially in Africa.

Pakistan's exports were performing better than most of its competitors, despite the challenging external environment, till February, 2020. During July-February FY2019-20, exports reached US\$ 15.6 billion compared to US\$ 15.1 billion last year, thus registering a growth of 3.6%. However, due to COVID-19, exports declined by 15% in March 2020 compared to February 2020, in April 2020, exports further declined to US\$ 957 million showing decline of 47% compared to March 2020. On year on year basis, exports declined by 54.2% in April 2020 reaching US\$ 957 million, as compared to US\$ 2089 million in same period last year. But during May, 2020, the exports improved showing 45.87% increase compared to April, 2020, and stood at US\$1396 billion. Thus, exports during FY2019-20 stood at US\$ 21.39 billion compared to US\$ 22.96 billion during last FY2018-19, showing a decline of 6.81%.

## **2.1 Group-wise Analysis of Exports**

Group-wise analysis suggests that performance of all groups including food, textile, petroleum and other manufactured groups remained subdued in the current fiscal year on the account of global headwinds and Covid-19.

### **2.1.1 Food Group**

Food group constituting 20.39% of overall exports for FY2019-20 posted a decline of 5.3% as compared to FY2018-19.

Within the food group, rice having the largest share in the group (49.9%), showed increase in export of 5.1%, mainly due to increase of 24.63% in basmati rice. Export of rice increased both in quantity and value by 1.1% and 5.1% respectively as Pakistan's share in total rice imports of the EU has been rising consistently ever since the bloc restricted Indian rice imports over excessive use of pesticides. Besides that, the currency movements of the competitor countries provided Pakistan an edge in its established African market. The other varieties under rice group witnessed a decline of 3.5% in value and 5.3% in quantity, compared to the corresponding period last year. Non-basmati broken rice and other varieties witnessed an increased supply to Africa and some Asian markets such as China, Indonesia, and Kazakhstan.

Export earnings from fruits registered a growth of 3.8% in value and 6.8% in quantity, while vegetables witnessed a growth of 27.95% in value. However, its quantity declined by 18.2%.

Fish & fish preparation subgroup during FY2019-20 witnessed a negative growth of 7.2% in value and 12.1% in quantity, compared to last year.

Exports of sugar declined by 78.3% in quantity and 68.3% in value terms during FY2019-20 as compared to the same period last year. The export of spices also declined by 0.5% in value and 9.1% in quantity terms during the period.

Meat and meat preparation increased both in value and quantity terms by 25.8% and 27.4% respectively during FY2019-20 as compared to the corresponding period last year.

Tobacco shows an increase of 47.8% in value and 31.8% in quantity during FY2019-20 as compared to FY2018-19 while Oil Seeds, Nuts and Kernals posed a decline of 59.5% in value and 58.3% in quantity.

### **2.1.2 Textile Group**

Exports of textile manufacturers, which accounts for 58.6% in total exports witnessed a negative growth of 6.01% and remained at US\$ 12.527 billion in FY2019-20, as compared to US\$ 13.328 billion during the same period last year.

Within the group, all the commodities are showing negative trends. Raw cotton, cotton yarn and cotton cloth are showing a noticeable decline of 16.6%, 12.5% and 12.9% in value terms during the FY2019-20 as compared to FY2018-19 due to contraction of demand during the Covid-19 pandemic situation. Exports of knitwear, bedwear, towels and readymade garments also declined during this financial year, showing a negative growth of -3.6%, -4.9%, -9.5% and -3.8% as compared to last financial year.

### **2.1.3 Petroleum Group**

Petroleum group having a negligible share of 1.3% in total exports registered a negative growth of 42.7%. This was on account of 34.9%, 68.1% and 27.2% decline in export of petroleum crude, petroleum products (excluding top naphtha) and petroleum top naphtha respectively.

### **2.1.4 Other Manufacturers Group**

Other manufacturers accounting for 14.2% of total exports, registered a negative growth of 9.7% during the period FY2019-20.

Within the group, chemical and pharmaceutical products having the largest share in the group, posted a negative growth of 11.2% in value terms. Leather manufacturers continues to struggle but registered a negative growth of 2.4% in value. Similarly, 22.6% decline in value was witnessed in leather tanned while its quantity decreased by 27%.

Exports of carpets, rugs and mats registered a negative growth of 19.3% in value. Sports goods decreased in value by 14.97% on the back of 102% decline in exports of football, surgical goods and medical instruments showing a growth of 8.4% for the period.

Engineering goods, jewellery and molasses posted a negative growth of 0.05%, 33.96% and 58.6% respectively. Cement export posted a negative growth of 4.5% in value during FY2019-20. Low domestic sale and significant capacity additions paved the way to foreign markets for cement manufacturer.

## **2.2 Direction of Exports**

Traditionally, Pakistan's export destinations have been concentrated in a few markets. Pakistani exports mainly go to ten countries namely USA, China, UAE, Afghanistan, UAE, Germany, France, Bangladesh, Italy and Spain. Among these countries, USA has the largest share followed by China and UK. All these countries have been on a stable trajectory in terms of export destinations of Pakistan. However, efforts are being made to explore new markets where lots of potential exists. Formulation of Strategic Trade Policy Framework (2019-24) is a way forward towards securing more international markets' access.

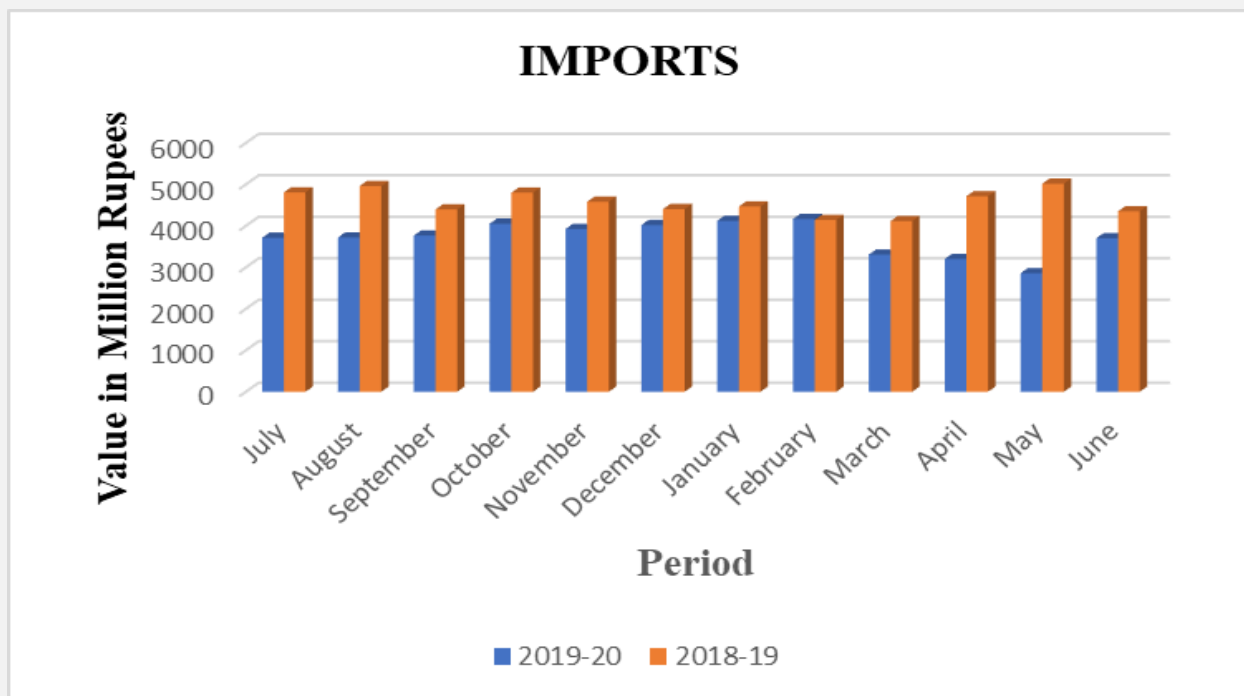

## **3. IMPORTS OF PAKISTAN**

During FY 2019-20, imports stood at US\$ 44.55 billion as compared to US\$ 54.76 billion during FY2018-19 showing a decline of 18.6%. The reduction in imports is due to decrease in imports of furnace oil, machinery & electric equipment, palm oil and textiles. Current scenario of declining imports shows that imports will be according to estimates. In view of falling global demand, weakening consumer and business sentiments among the major economies, trade tensions and economic stabilization measures at home, the imports are expected to further decline.

Additionally, the government has launched import substitution drive that will be instrumental in reducing pressure on current account. The Finance Supplementary (Second Amendment) Act, 2019 particularly offered tariff concessions to those industries that can offer import substitution.

It lowered tariffs on the raw materials and intermediate goods that can help local firms in meeting local demand that is currently being fulfilled by the foreign firms.

### 3.1 Group-wise Analysis of Imports

#### 3.1.1 Food Group

Food group constitutes 12.2% of overall import bill. Food import bill stood at US\$ 5.424 billion during FY2019-20 as compared to US\$ 5.668 billion during FY2018-19. Hence, witnessed a significant decline of 4.3%. Within the group, heaviest decline was observed in imports of dry fruits, sugar, edible oil (soybeans and palm oil) by 20.4%, 2.4% and 2.7% respectively while import of spices increased by 6.96%. Yet lower international palm oil prices also suppressed import values.

Other key items in the group are milk & related items, and pulses. Import of milk & related items showed decline of 29.2% while pulses posted an increase of 21.5%. Import of tea observed a decline of 6.8%. Decline in imports in this sector can also be attributed to the SRO issued by the government, which required proper labelling tag on fast-moving consumer goods accompanied with Halal certificate.

#### 3.1.2 Machinery Group

Machinery group with a 19.7% share in overall imports, declined by 1.6% to US\$ 8.782 billion, pushing down the import bill. Import of power generating machinery increased by 8.7% in FY2019-20 as compared to the same period last year.

Office and textile machinery decreased by 12.9% and 18.7% respectively in FY2019-20. Construction and mining machinery import decreased by 9.1% mainly because of the slowdown in construction activities in the given period. Agriculture machinery imports also showed negative growth of 30.7%. Import of electrical machinery showed an increase of 26.4%.

The import bill of telecommunication group increased by 34.9% to US\$ 1.860 billion in FY2019-20. The import of mobile handsets increased by 81.2% in the said period as compared to 10.9% decrease in the same period last year. Import of the other apparatus also decreased by 21.4% in FY2019-20 as compared to same period last year.

### **3.1.3 Transport Group**

Transport group with 3.4% share in total imports, declined by 49.9% with a hefty decline of 44.5% in road motor vehicles.

### **3.1.4 Petroleum Group**

Petroleum group, being the largest contributor to total import bill, showed a negative growth 27.8% in FY2019-20 as compared to the previous period last year, standing at US\$ 10.420 billion as compared to US\$ 14.441 billion in the same period last year. Among the petroleum group, petroleum products declined by 24.5% in value despite 5.6% increase in quantity. Import bill of petroleum crude also decreased by 44.4% along with 24.5% decline in quantum import.

### **3.1.5 Textile Group**

Textile group, which has 5.7% share in overall imports, showed a decline of 21.5% during FY2019-20, as compared to the same period last year, although raw cotton imports showed an increase of 14.7%.

### **3.1.6 Agriculture & Other Chemicals Group**

The import bill of Agriculture & Other Chemicals showed a decline of 16% for FY2019-20 over the same period of last year. Within the group of fertilizers manufacture, Plastic Material, Insecticides and medicinal products showed decline of 28.8%, 14.1%, 2.1% and 8.8% respectively.

### **3.1.7 Metals Group**

Metal group showed a decline of 18.4% in import bill. In this group, iron & steel import decreased by 31.0%, while import of iron and steel scrap increased by 4.2%. Stagnant construction activities and low PSDP spending have urged local steel industry to curtail their production, which ultimately lowered the demand for imported raw material.

## **3.2 Direction of Imports**

Like exports, Pakistan's imports are also concentrated in a few countries. Based on the current year, around 65% of total imports originated from ten countries, China, UAE, Saudi Arabia, Kuwait, Indonesia, India, USA, Japan, Germany and Malaysia – with China being the largest import destination.

## 4. TRADE DEFICIT – COMPOSITION & HISTORICAL TRENDS

Trade balance is one of the crucial instruments in macro-economic policies to provide information about the economic behaviour and policy decisions. It measures a country's net income received from the rest of the world. In three (3) years from the date of independence, Pakistan started foreign trade in the year 1950 after a brief initial formation phase. However, the country started having trade deficits from FY1954-55 till this date. Pakistan joined World Trade Organization in 1995, but terms of trade were never favourable. Pakistan maintains a trade deficit due to high imports of energy products including fuel, machinery equipment and chemicals. Main import partners are the United Arab Emirates and China. Textiles account for most of Pakistan's export earnings.

<b>PAKISTAN'S TRADE STATISTICS</b>

## 5. QUARTERLY ANALYSIS

PERIOD	EXPORTS	IMPORTS	BALANCE OF TRADE	PERCENTAGE WITH PREVIOUS QUARTER	PERCENTAGE WITH CORRESPONDING QUARTER	PERCENTAGE WITH PREVIOUS QUARTER	PERCENTAGE WITH CORRESPONDING QUARTER	PERCENTAGE WITH PREVIOUS QUARTER	PERCENTAGE WITH CORRESPONDING QUARTER
				EXPORT	IMPORT	BALANCE OF TRADE			
JUL-SEP, 2018 (Q1)	5.374	14.165	-8.791	-	-	-	-	-	-
OCT-DEC, 2018 (Q2)	5.807	13.788	-7.980	-	-	-	-	-	-
JAN-MAR, 2019 (Q3)	5.890	12.727	-6.837	-	-	-	-	-	-
APR-JUN, 2019 (Q4)	5.887	14.083	-8.196	-	-	-	-	-	-
JUL-SEP, 2019 (Q1)	5.510	11.199	-5.689	6.41	2.53	-20.48	-20.94	-30.59	-35.28
OCT-DEC, 2019 (Q2)	6.015	11.995	-5.981	9.16	3.57	7.11	-13.00	5.12	-25.06
JAN-MAR, 2020 (Q3)	5.919	11.596	-5.677	-1.59	0.49	-3.33	-8.89	-5.08	-16.97
APR-JUN, 2020 (Q4)	3.950	9.762	-5.812	-33.26	-32.90	-15.81	-30.68	2.38	-29.09

The above table shows that quarterly value of exports showed an increasing trend during the first two quarters. Exports were badly affected during last two quarters on account of Covid-19. Imports declined throughout FY2019-20.

## 6. DISSEMINATION OF DATA

Upon receipt of monthly data from Pakistan Revenue Automation Limited (PRAL) during first week of each month, PBS immediately compiles and releases summary figures (Annex-I). After verification of PRAL's figures by Directorate of Research & Statistics, FBR, PBS compiles and issues Advance Release on Trade Statistics by 15<sup>th</sup> of every month (Annex-II).

## 7. MEASURES TAKEN BY THE GOVERNMENT TO ENHANCE EXPORT

The government is placing enhanced focus on an export-led growth strategy. Key steps taken so far, include:

- Market -based exchange rate;
- Extension in PM's export package for 3 years;
- Refunds to exporters and industrialists;
- Tariff rationalization on inputs;
- Export refinancing scheme;
- SBP enhanced the existing limits of exports related soft loans and allowed manufacturing sector an advance payment of up to US \$ 10,000 for import of raw materials and spare parts;

- SBP has also allowed banks to enhance the time period for realization of exports proceeds from existing requirement of 180 days to 270 days on a case to case basis where the delay is related to COVID-19.

## Annexure-I

GOVERNMENT OF PAKISTAN PAKISTAN BUREAU OF STATISTICS KARACHI						
SUMMARY (Revised)						
June, 2020						
Exports						
Imports						
Balance of Trade

( Shaukat Zaman )  
Director (Trade)

**Government of Pakistan  
Pakistan Bureau of Statistics**

**SUBJECT: - ADVANCE RELEASE ON EXTERNAL TRADE STATISTICS FOR THE MONTH OF JUNE, 2020.**

**EXPORTS:**

According to the provisional figures compiled by the Pakistan Bureau of Statistics, exports from Pakistan during June, 2020, amounted to Rs.263,988 million (provisional) as against Rs.223,536 million (provisional) in May, 2020; and Rs.264,345 million during June, 2019, showing an increase of 18.10% over May, 2020, but a decrease of 0.14% over June, 2019.

2. In terms of US dollars, the exports in June, 2020, were \$1,599 million (provisional) as compared to \$ 1,396 million (provisional) in May, 2020, showing an increase of 14.54% but decreasing by 6.11% as compared to \$1,703 million in June, 2019.

3. Exports during July–June, 2019 – 2020, totaled Rs.3,369,809 million (provisional) as against Rs.3,128,230 million during the corresponding period of last year showing an increase of 7.72%.

4. In terms of US dollars, the exports during July – June, 2019 - 2020 totaled \$21,394 million (provisional) against \$22,958 million during the corresponding period of last year showing a decrease of 6.81%.

5. Main commodities of exports during June, 2020 were Knitwear (Rs. 36,549 million), Readymade garments (Rs. 30,542 million), Bed wear (Rs. 27,462 million), Cotton cloth (Rs. 21,495 million), Rice others (Rs. 17,043 million), Cotton Yarn (Rs. 12,271 million), Towels (Rs.9,727 million), Basmati rice (Rs. 7,887 million), Madeup articles (excl. towels & bedwear) (Rs.7,018 million) and Fruits (Rs. 5,498 million).

6. The increase (+) / decrease (-) recorded in main commodities exported during June, 2020 over May, 2020 and June, 2019, is given below: -

S.No.	COMMODITIES	%Change for value in Million Rupees in June, 2020 over	
		May, 2020	June,2019
1	Knitwear	26.20	2.26
2	Readymade garments	40.69	-8.10
3	Bed wear	17.46	1.73
4	Cotton cloth	36.64	-13.23
5	Rice others	-15.12	22.45
6	Cotton yarn	47.42	2.21
7	Towels	45.88	14.35
8	Basmati Rice	-39.92	-3.63
9	Madeup articles (excl. towels & bedwear)	26.75	1.42
10	Fruits	271.74	59.97

## **IMPORTS**

7. Imports into Pakistan during June, 2020, amounted to Rs.614,004 million (provisional) as against Rs. 458,272 million (provisional) in May, 2020; and Rs.675,731 million during June 2019 showing an increase of 33.98% over May, 2020, but a decrease of 9.13% over June, 2019.

8. In terms of US dollars, the imports in June, 2020, were \$ 3,719 million (provisional) as compared to \$2,863 million (provisional) in May, 2020, showing an increase of 29.90%, but decreased by 14.56% as compared to \$4,353 million in June, 2019.

9. Imports during July – June, 2019 - 2020 totaled Rs.7,033,248 million (provisional) as against Rs.7,443,253 million during the corresponding period of last year showing a decrease of 5.51%.

10. In terms of US dollars, the imports during July – June, 2019 -2020 totaled \$44,574 million (provisional) as against \$54,763 million during the corresponding period of last year showing a decrease of 18.61%.

11. Main commodities of imports during June, 2020 were Petroleum products (Rs. 48,627 million), Power generating machinery (Rs.45,362 million), Mobile phones (Rs.38,189 million), Natural gas, liquefied (Rs. 27,336 million), Plastic Materials (Rs. 25,271 million), Iron and Steel (Rs. 22,589 million), Palm Oil (Rs. 22,556 million), Petroleum crude (Rs.22,296 million), Electrical machinery & apparatus (Rs.22,108 million) and Medicinal products (Rs. 18,408 million).

12. The increase (+) / decrease (-) recorded in main commodities imported during June, 2020 over May, 2020 and June, 2019 is given below: -

S.No.	COMMODITIES	%Change for value in Million Rupees in June, 2020 over	
		May, 2020	June, 2019
1	Petroleum products	133.64	-50.78
2	Power generating machinery	123.03	291.46
3	Mobile phones	114.81	326.07
4	Natural gas, liquefied	58.15	-36.82
5	Plastic Materials	33.07	4.07
6	Iron and steel	-2.65	-27.72
7	Palm oil	4.47	4.73
8	Petroleum crude	83.07	-62.25
9	Electrical machinery and apparatus	-29.62	6.14
10	Medicinal products	109.42	40.00

## **BALANCE OF TRADE:**

13. Based on the provisional figures of imports and exports, the balance of trade in June, 2020, was (-) 350,016 million in terms of Rupees and (-) 2,120 million in US dollars. The balance of trade figures cumulative from July–June, 2019 -2020, were (-) 3,363,439 million in terms of Rupees and (-) 23,180 million in US dollars.

14. Four statements giving quantity and value details of selected commodities of exports and imports for the month of June, 2020 and July–June,2019-2020 along-with the data for previous month and corresponding period of last year are enclosed.
