KEY MESSAGE

Planning and Development Board Punjab has always been striving for rationale policy formulation in the province on basis of credible data. Bureau of Statistics (BoS) Punjab, as attached wing of the Planning and Development Board shoulders the responsibility of providing data to the administrative departments and the government.

A special publication, "**Punjab Development Statistics for 50 Years: 1972-2021**," has been released by the BoS. This report consolidates five decades of valuable statistics on a wide range of key socioeconomic indicators. The indicators present in this publication include; agriculture, communication, cooperative societies, education, fisheries, food grains, foreign trade, forestry, fuel & power, health, housing, livestock, manufacturing industries, mining, population, prices, public finance, recreation, roads and transport. Furthermore, the data for the years 2022 and 2023 is available in the regular publications of PDS, published in 2023 and 2024.

This publication is a key resource for assessing Punjab's development history. It presents a clear picture of the economic, infrastructural, and social changes that have occurred over the last half-century. By showing long-term trends, the data helps policymakers identify sectors where Punjab has flourished and those that require more attention for future growth.

The report's ultimate purpose is to promote evidence-based policy formulation. Using this wealth of information ensures rational resource allocation and the proper utilization of public money. I express confidence that this report will be an invaluable tool for decision-makers in planning for sustained economic and human development in Punjab.

In the end, I would like to extend my appreciation to the team of Bureau of Statistics Punjab for their devoted efforts in producing this valuable publication.

Dr. Naeem Rauf,
Chairman, Planning and Development Board Punjab

KEY MESSAGE

Planning and Development Board Punjab plays important role in provincial policy-making by evaluation of different interventions with regards to their productivity for the citizens of Punjab. The decision makers rely on statistical information for evaluation of projects in different sectors. Bureau of Statistics (BoS) Punjab is an attached wing of the P&D Board and provides official statistics to government.

To provide a long-term perspective, the BoS has produced a unique publication, **"Punjab Development Statistics for 50 Years: 1972-2021."** This report is designed to capture the historical progress of Punjab and depicts trends across numerous vital sectors. It covers vital areas like agriculture, communication, cooperative societies, education, fisheries, food grains, foreign trade, forestry, fuel & power, health, housing, livestock, manufacturing industries, mining, population, prices, public finance, recreation, roads and transport, presenting developments in social & economic sectors in the province. The latest updated versions of the regular publication of PDS provide data for the years from 2022 and 2023.

It is a valuable report that comes up with a holistic picture of social, economic, infrastructural and administrative changes that have emerged over half a century in Punjab. On the social side, it encompasses wide range of indicators on health, education, environment and security, while in development front, it covers indicators like road length, recreation and housing. This historical compilation offers a holistic view of the social, economic, infrastructural, and administrative changes in Punjab over half a century. It serves as a valuable source of information for government decision-makers and provides a rich opportunity for researchers.

I am confident that this publication will significantly contribute to the cause of evidence-based policy formulation in Punjab. I conclude by congratulating the entire BoS team for their dedicated work in preparing this valuable report.

Rafaqat Ali,
Secretary, Planning and Development Board Punjab

PREFACE

Data serves as the foundation for informed decision-making across all sectors of economy and social life. The government & its administrative departments need up-to-date statistics for formulation, monitoring and evaluation of various interventions in public sector. Punjab Development Statistics (PDS) is a key source of data on so many socio-economic indicators, being published by Bureau of Statistics Punjab, since 1972.

It is a matter of immense pleasure for me to share the special edition of '**Punjab Development Statistics for 50 Years: 1972-2021**', a comprehensive compendium of Punjab's socio-economic development. It contains time-series data on key subjects like health, education, and agriculture, serving as a valuable resource for policymakers, academicians, and researchers. Latest data for 2022 and 2023 is available in the 2023 and 2024 editions of Punjab Development Statistics.

Compiling of 50 years' time-series data for this publication was a significant challenge, particularly due to limitations of accessing data from 1972 to 2002, which was previously available in hard form, only. Meticulous efforts were put-in to convert this data into the required digital format for this publication. Despite these challenges, the commitment & dedication of the team enabled to overcome these obstacles and successfully compile a comprehensive repository of Punjab development statistics over a span of half a century.

I would like to take this opportunity to acknowledge the invaluable contributions of our esteemed former Director General, the late Ch. Sajid Rasul (May his soul rest in peace), who envisioned and spearheaded the initiative of compiling this publication. His leadership and dedication to promoting data-driven decision-making have been instrumental in shaping this publication into a comprehensive repository of Punjab's socio-economic development. We remain grateful for his tireless efforts in laying the foundation for this seminal work, which will continue to benefit policymakers, researchers, and stakeholders for generations to come.

I extend my appreciation to all the staff of the Bureau of Statistics Punjab, especially Publication and Data Processing Divisions, whose unwavering dedication & tireless efforts have contributed to compilation of this invaluable publication.

Muhammad Ali Ammer

Director General, Bureau of Statistics, Punjab

Editorial Board

Muhammad Ali Ammer	Director General
Muhammad Mumtaz Ahmad	Director
Ghulam Yasin	Deputy Director
Muhammad Farooq	Assistant Director

^a BoS acreage slightly differs from the acreage of Directorate of Agriculture, Crop Reporting Service, due to the difference in acreage of Rajanpur Tehsil of D.G. Khana Distt.

^b BoS acreage slightly differs from the acreage of Directorate of Agriculture, Crop Reporting service due to the difference in acreage of Rajanpur Tehsil of D.G. Khana Distt.

^c The increase in Sugarcane & Cotton area accounted for declined in the Rice area by substitution effect as a result of low comparative returns in Rice Crops.

^a Bureau of Statistics acreage slightly differs from the acreage of directorate of Agriculture, CRS, due to difference in acreage of Rajanpur Tehsil of D.G Khan District.

^b The increase in Sugarcane & Cotton areas accounted for decline in the Rice area by substitution effect as a result of low comparative returns in Rice Crop.

Note:- Post graduate colleges are included in degree colleges till 2011-12.

^a Number of inter colleges declined during 1972-73 and 1973-74 due to the merger of uneconomic units with other units.

^b During 1974-75, two female inter colleges were upgraded to degree colleges.

Note:- Postgraduate colleges are included in degree colleges till 2011-12

^a Excluding three federal government colleges (2 males and 1 female) at Islamabad.

^b During 1975-76 two inter colleges indicated enrolment for degree classes, hence they were presumed as degree colleges, where as actually they were inter colleges.

^a Abnormal decrease is due to ban imposed by the government for two years in admission of P.T.C classes.

^a Decrease is due to stoppage of admission in professional courses by the government.

^b Enrolment in elementary teachers training colleges, declined because of restrictions imposed on P.T.C classes, picked up in 1977-78 but it again showed declining trend from 1978-79 to 1980-81.

Note:- Bulk supply merged into others.

* It includes electricity supplied under bulk supply, traction & tariff 'H' & revenue assessed under these categories as well as services & meter rental charges.

^a Electricity units were less consumed due to heavy rains during this year.^b Sharp increase in because of special attention gain to street lighting during this year.^c Includes 44 million kwh of traction.

* It includes electricity supplied under bulk supply, traction & tariff 'H' & revenue assessed under these categories as well as services & meter rental charges.

Bulk supply merged into others.

^a Increase is due to fuel adjustment charges.^b Sharp rise is due to enhanced electricity charges.^c Also includes revenue of traction.

* Decrease is due to closers of 2 hospitals run by Pakistan Railways & 3 hospitals run by Social Security.

^a Some hospitals were converted into R.H.C.^b Most of the S.H.C were closed in Rawalpindi Division.^c There are very rough estimates arrived at by adding the number of Doctors, LHV & Nurses during a year to the number as 1st January of the previous year. These may be therefore, interpreted at this face value.

^a There were 32 Beds in T.B Clinics in 1971. A Government T.B.C having 12 Beds at D.G Khan was closed & instead a T.B ward with 36 Beds was established in the district headquarters hospital of that District bringing down the no's of beds of T.B.C to 20. In addition a T.B.C with 4 beds run by a voluntary agency at Jhelum has now no. beds. This brings the total bed strength of T.B.C from 32 in 1971 to 16 in 1976. Further a T.B.C having 6 beds run by a voluntary agency had no beds reducing the bed strength of T.B.C to in 1977-78 which are available only with one T.B.C generally no beds are provided in the T.B.C.

^f = Revised^a Fall is due to decline in the average number of looms worked owing to less demand & higher manufacturing cost in comparison with power loom sector.^b Decline in employment is due to less production of cotton cloth, migration of workers to middle east countries & change over from spindles to rotors.^c Closure of three additional weaving sections in 1984-85 and one in 1986-87.
