Preface

It is a matter of pleasure, that the Bureau of Statistics, Planning & Development Board, Government of the Punjab has taken initiative to publish "Punjab Health Statistics 2021". This is the 2nd edition and a valuable addition in Punjab Bureau's publication list. This report provides important statistics in respect of Health Facilities available in Punjab at Tehsil, District, and Divisional Levels. These statistics are a pre-requisite for sound decision-making at Tehsil, District, and Divisional levels of concerned departments/sectors.

This report contains statistics regarding public & private Health Institutions (hospitals, dispensaries, T.B Clinics, Rural Health Centres (R.H.Cs), Basic Health Units (B.H.U.s), Sub Health Centres (S.H.Cs), Maternity & Child Health Centres (M.H.Cs), and Trauma Centres) along with their bed strength, in-door & outdoor patients treated in these Health Institutions, Registered Medical & Para-Medical Personnel at the Tehsil, District, and Divisional levels.

This publication is composed on the basis of data received from Director General Health Services, Punjab, Chief Executive Officers (CEO's), Inspector General (I.G) Prison, Auqaf Department, Punjab Employees Social Security, Pakistan Railways, Director General Medical Services WAPDA, Pakistan Nursing Council and Pakistan Medical Commission (PMC). We highly acknowledge their cooperation, as, without that, it would not be possible to publish this publication.

All possible efforts are carried out to incorporate the latest available data in this report. It is hoped that this report will be useful to the policymakers, planners, academia, researchers, and other users of health data in the public and private sectors.

Suggestions for further improvements will be welcomed for next edition.

EXPLANATORY NOTE

Annual Data in respect of the following items is presented in this Report:-

- 1) Number of Health Institutions
- 2) Number of beds in Health Institutions
- 3) Number of Indoor & Outdoor Patients Treated in Health Institutions
- 4) Medical & Para Medical Personnel

All information is provided at Tehsils/ Districts and Divisional Levels.

Coverage

“Punjab Health Statistics 2021” covers information regarding Hospitals, Dispensaries, T.B. Clinics, Rural Health Centers (RHCs), Basic Health Units (BHUs), Sub-Health Centers (SHC) and Maternity & Child Health Centers (MCH) located in Punjab under administration of Health Department, Home Department, Auqaf Department, Pakistan Railways, WAPDA, Punjab Employees' Social Security Institution (PESSI), and Private Trust Institutions located in Punjab province.

Note: - Health Institutions belonging to the Federal government, and Defense Services and Private Doctors are not being covered.

Data Collection System

i) Health Department

Health Institutions belonging to the Health Department in the province are required to keep a record of all the out-door and in-door treated patients in an “**Abstract Register**”. From the information recorded in the “Abstract Register” and other relevant registers, all types of Health Institutions are required to supply annual statistical returns to the District Health Offices.

ii) Other Departments/Organizations

Pakistan Railways, Home Department, WAPDA, Auqaf Department and Punjab Employees' Social Security Institutions (PESSI) collect the annual Statistics from their health institutions and compile the data by Tehsil, District, Divisional, and Provincial levels at their Head Offices.

Punjab Health Statistics Report Link

Annual Report of Health is uploaded/published on the official website of the Bureau of Statistics Punjab with free access for everyone.

Important Definitions

Health Institution:

A health institution is defined as an institution that provides health services i.e. curative and preventive to all/specific class of the public as out-door/ in-door patients.

This publication covers about 5283 institutions delivering heavily subsidized healthcare to the public. These facilities are broadly divided into the following groups (i) Basic Health Units (BHUs), (ii) Sub Health Centers (SHC), (iii) Rural Health Centers (RHCs), (iv) Maternal and Child Health Centers (MCH), (v) Tuberculosis Centers (TB), (vi) Dispensary (vii) Hospitals.

Sub Health Center (S.H.Cs):

These facilities are staffed with a physician, one Lady Health Visitor, and a midwife. It provides primary health care services to the catchment areas where there are no basic health units. 193 SHCs are covered by this publication.

Basic Health Unit (B.H.U.s):

It is the first level of health care considered to be essential to maintain adequate health and protection from disease. Typically, each Union Council has a BHU which has 2 beds, but in some cases there are two facilities per union council and serves a catchment population of about 10,000 to 25,000.

This publication covers 2587 BHUs spread across the length and breadth of the province.

Rural Health Centers (RHCs):

BHUs are almost all over the place in rural areas, they have limited usefulness for patients seeking slightly advanced but not specialized care. To serve such patients, the health system has established a tier of facilities known as RHCs. The RHCs are better equipped than BHUs to manage minor emergencies and surgeries. Typically, the RHC has 15-20 beds inpatient facility and each serves a catchment population of about 100,000. This is envisaged as a health facility that is open 24/7.

This publication covers about 378 RHCs across the province.

Maternal and Child Health Centers (MCHs):

These facilities provide maternal, neonatal and child health services including reproductive health and family planning and are often located in urban and large rural areas. Maternal and child health centers are managed by Lady Health Visitors and assisted by a facility-based trained traditional birth attendant. This publication covers 278 MCHs.

Tuberculosis Centers (TBs):

These centers detect and manage tuberculosis (TB) patients. This Publication covers 36 T.B Clinics across the Punjab.

Dispensaries:

A dispensary is an institution having less than ten beds. This publication covers about 1411 dispensaries outlets in the province.

Hospital:

Hospital is an institution having ten or more than ten beds.

The Hospitals are broadly divided into three types: (i) Tehsil Headquarter (THQ), Hospitals, (ii) District Headquarter (DHQ) Hospitals (iii) Teaching Hospitals.

Tehsil Headquarter Hospitals:

These hospitals serve a catchment population of about 0.5 - 1 million, providing a range of preventive, clinical and rehabilitative services. Presently Tehsil Headquarters have 40 - 60 beds inpatient facility and a range of outpatient services.

District Headquarter Hospitals:

These hospitals cover a catchment population of 1 - 3 million, having 125 - 250 beds capacity. The district headquarters hospital provides promotive, preventive, curative, advanced diagnostic and inpatient specialized services.

Teaching Hospitals:

These hospitals deal with the most advanced healthcare requirements and prepare doctors and paramedical staff for future needs. These hospitals are located in urban centers, exclusively in all divisional headquarters.

There are 48 teaching hospitals in the province, of which 18 are in Lahore.

Trauma Centers:

A trauma center is a hospital equipped and staffed to provide care for patients suffering from major traumatic injuries such as falls, motor vehicle collisions, or gunshot wounds. A trauma center may also refer to an emergency department (also known as a "casualty department" or "accident and emergency") without the presence of specialized services to care for victims of major trauma.

This publication covers about 9 trauma centers outlets in the province.

Statistical Abstract: As on 1st Jan, 2021*(Number)*

Health Institutions	Punjab	Population (000's)	Population per Health Institution¹
Health Institutions	5,283	110,264,125	20,871
i) Hospitals	391	110,264,125	282,005
ii) Dispensaries	1,411	110,264,125	78,146
iii) Rural Health Centers	378	110,264,125	291,704
iv) Basic Health Units	2,587	110,264,125	42,622
v) Trauma Centers	9	110,264,125	12,251,569

(Progressive Number)

Medical Personnel	Punjab	Population (Million)	Per Million Population²
i) Registered Doctors			
a) Doctors (MBBS & Specialists)	120,964	110.01	1,100
b) Dentists (BDS & Specialists)	11,088	110.01	101
